# Slide with Lots of Text!

Imagine trying to live in a world dominated by dihydrogen oxide, a compound that has no taste or smell and is so viable in its properties that it is generally benign but at other times swiftly lethal.

# I Wish I Knew More Math!

But this sure looks pretty:

# Famous Epics

Poet	Title	Language	Hero
Homer	<i>Iliad</i>	Greek	Achilleus
Virgil	<i>Aeneid</i>	Latin	Aeneas
<i>Beowulf</i>		Old English	Beowulf

# Some Metafun Wizardry!

Metafun has a really amazing feature: it can locate positions in your text and anchor graphics to these positions. You can use this for all kinds of purposes: put a background behind certain words, connect them with lines or arrows, etc.

# A picture taking the entire width

A light gray rectangular box with a thin black border, centered on a blue background. Inside the box, the following text is displayed in a monospaced font:

```
name: dummy  
file: botticelli  
state: unknown
```

name: dummy  
file: botticelli  
state: unknown

```
name: dummy  
file: apollobelvedere  
state: unknown
```

And here's a picture  
with text next to it.
